

# SATURN YELLOW

## FLUORESCENT TRACKING DUST

FOR USE ONLY AS A RODENT DETECTION AGENT

### INSTRUCTIONS FOR USE

A product for use in rodent detection and movement in cases where the pattern of activity needs to be monitored.

A very small quantity of powder can be placed around the suspect area and can then be left overnight and the following day movement can be easily seen.

**THIS PRODUCT IS ONLY RECOMMENDED FOR USE IN AREAS WHERE THE RESIDUE CAN BE EASILY CLEANED. CARE SHOULD BE TAKEN IN DOMESTIC SITUATIONS**

In most cases the footprints left can be seen easily. The use of a fluorescent UV lamp can greatly increase the amount of movement that can be seen. In most cases any residue can be removed by washing with a suitable cleaning agent

### First Aid Measures

**General advice:** Change contaminated clothing. No known symptoms to date.

**Inhalation:** Move victim to fresh air. Seek medical attention.

**Skin contact:** Thoroughly wash skin with soap and water.

**IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Subsequently consult an ophthalmologist.

**Ingestion:** Rinse mouth. Do **NOT** induce vomiting. Seek medical attention.

**This product is not classified according to EC regulation 1272/2008. For more detailed information see sds.**
