

KILLGERM® DRAIN SMOKES

DO NOT BREATHE SMOKE. Otherwise wear respiratory protective equipment and eye protection (see HSE Guidance Booklet HS (G) 53 "Respiratory Protective Equipment- A practical guide for users").

Respiratory protection

Wear respirator with a particle filter mask (protection factor 4) conforming to European norm EN149FFP1 or equivalent. Respiratory protection should only be used to control residual risk of short duration activities, when all reasonably practicable steps have been taken to reduce exposure at source e.g. containment and/or local extract ventilation. Always follow respirator manufacturer's instructions regarding wearing and maintenance.

Hand protection

Wear CE Marked (or equivalent) nitrile rubber gloves (minimum thickness 0,40 mm). Wash when contaminated. Dispose of when contaminated inside, when perforated or when contamination outside cannot be removed. Wash hands always before eating, drinking, smoking or using the toilet.

Eye protection

Wear goggles conforming to EN166 (Field of Use 5 or equivalent).

Skin and body protection

Wear standard coverall and type 4 suit.

Wear two layers of clothing wherever possible. Polyester/cotton or cotton overalls should be worn under chemical protection suit and should be professionally laundered frequently.

Instructions for use

Remove the container cap.

Place each smoke generator on a fireproof base approximately 300 mm x 300 mm.

When a number of generators are being used, space them throughout the area to be tested and prepare all for ignition before lighting the first.

Light the ignitor using a match.

Do not leave lighted match on generator.

AVOID naked flames and hot surfaces

First Aid

General advice: Consult a physician. Show this label along with the safety data sheet to the doctor in attendance.

If inhaled: If breathed in, move person into fresh air. If not breathing, give artificial respiration. Consult a physician.
