

Date of Issue: February 2004 Revision: May 2021

IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND COMPANY/UNDERTAKING

1.1 Product Identifier: NIPPON ANT KILLER LIQUID²

1.2 Relevant uses of the substance or mixture and uses advised against:

Biocide

1.3 Manufacturer/Distributor: Vitax Limited, Owen Street, Coalville, LE67 3DE

Tel: +44 (0)1530 510060 Email: info@vitax.co.uk

1.4 Emergency Contact: Tel: +44 (0)1530 510060 (Office Hours)

2. HAZARDS IDENTIFICATION

2.1 Classification: Classification according to Regulation (EC) No 1272/2008 (EU-GHS/CLP)

Physical hazards Not classified

Health hazards Elicitation - EUH208 **Environmental hazards** Aquatic Chronic 3 - H412

2.2 Label Elements: Contains 0.081% Spinosad (EC434-300-1)

Signal word: None

Hazard statements: H412 Harmful to aquatic life with long lasting effects.

Precautionary Statements P101 If medical advice is needed, have product container or label at hand.

P102 Keep out of reach of children. P273 Avoid release to the environment.

P501 Dispose of contents/container in accordance with local regulations.

2.3 Other Hazards: EUH208 Contains 1,2-benzisothiazolin-3-one. May produce an allergic reaction.

3. COMPOSITION/INFORMATION ON INGREDIENTS

3.2 Mixtures

Chemical Name	CAS-No./	Annex Index	Symbol(s) and Phrases	Precautionary	Concentration
	EINECS-No.	or REACH number		Statements:	[%]
Spinosad	168316-95-8 /	01-211953743	Aquatic Acute 1 - H400, H410		0.081%
	434-300-1				
1,2-Benzisothiazolin- 3one	2634-33-5/	613-088-00-6	Acute Tox. 4 - H302, Skin Irrit. 2 H312, Skin Sens. 1 H317, C ≥0,05%, Eye Dam. 1 H318		0.01-0.03%
	220-120-9		Aquatic Acute 1 - H400, H410		

4. FIRST AID MEASURES

4.1. Description of first aid measures

General information

Inhalation Remove victim immediately from source of exposure. Provide fresh air, warmth

and rest, preferably in a comfortable upright sitting position. Get medical attention

if any discomfort continues.

Ingestion Rinse mouth thoroughly. Drink plenty of water. Get medical attention if any

discomfort continues.

Skin contact Remove contaminated clothing immediately and wash skin with soap and water.

Get medical attention if any discomfort continues.

Eye contact Immediately flush with plenty of water for up to 15 minutes. Remove any contact

lenses and open eyes wide apart. Get medical attention if any discomfort

continues.

4.2. Most important symptoms and effects, both acute and delayed

Not available

4.3 Indication of immediate medical attention and special treatment needed:

Not available.

5. FIRE FIGHTING MEASURES

5.1. Extinguishing media

Extinguishing media Extinguish with foam, carbon dioxide, dry powder or water fog.

5.2. Special hazards arising from the substance or mixture

Hazardous combustion products None under normal conditions.

Unusual Fire & Explosion Hazards Not known.

Date of Issue: February 2004 May 2021 Revision:

5.3. Advice for firefighters

Special Fire Fighting Procedures Avoid breathing fire vapours.

Protective equipment for fire-fighters Self-contained breathing apparatus and full protective clothing must be worn in

case of fire.

ACCIDENTAL RELEASE MEASURES

6.1. Personal precautions, protective equipment and emergency procedures

See Section 8 of this safety data sheet. Wash hands and exposed skin after

handling.

6.2. Environmental precautions Do not discharge onto the ground or into water courses.

6.3. Methods and material for containment and cleaning up

Soak up spillage with absorbent material such as sand, transfer to suitable marked

container and keep safe before disposal in accordance with local authority

requirements.

6.4. Reference to other sections None

HANDLING & STORAGE

7.1. Precautions for safe handling Avoid contact with skin and eyes.

7.2. Conditions for safe storage, including any incompatibilities

Store in tightly closed original container in a dry, cool and well-ventilated place.

Keep separate from food, feedstuffs, fertilisers and other sensitive material.

Miscellaneous hazardous material storage. **Storage Class**

7.3. Specific end use(s) The identified uses for this product are detailed in Section 1.2.

Usage Description Biocide.

8. EXPOSURE CONTROLS/ PERSONAL PROTECTION

8.1 Control parameters:

Spinosad Dow IHG Long-term exposure limit (8-hour TWA): 0.3 mg/m³

8.2 Exposure Controls:

Protective equipment No specific personal protective equipment assigned. **Engineering measures** Provide adequate general and local exhaust ventilation. Respiratory equipment No specific personal protective equipment assigned. Hand protection No specific personal protective equipment assigned. Eye protection No specific personal protective equipment assigned.

Wash hands at the end of each work shift and before eating, smoking and using the **Hygiene measures**

toilet.

9. PHYSICAL & CHEMICAL PROPERTIES

9.1 Information on basic physical and chemical properties:

Appearance amber liquid Odour honey like odour.

7.5 pН

Boiling point not available Melting point not available. Flammability non flammable

Flammability limits (% v/v) N/A. Auto flammability N/A Explosivity N/A Oxidising properties N/A. Vapour Pressure N/A Relative density 1.29 at 20°C Solubility soluble in water.

9.2 Other information: None.

10. STABILITY & REACTIVITY

10.1. Reactivity Stable under normal conditions.

10.2. Chemical stability Stable under normal temperature conditions and recommended use.

10.3. Possibility of hazardous reactions

Not known.

Hazardous Polymerisation Will not polymerise.

Date of Issue: February 2004 Revision: May 2021

10.4. Conditions to avoid Avoid high temperatures

10.5. Incompatible materials

Materials To Avoid Oxidizing agents, strong acids and bases.

10.6. Hazardous decomposition products

Combustion or thermal decomposition will evolve carbon oxides.

11. TOXICOLOGICAL INFORMATION

11.1. Information on toxicological effects

Toxicological information

Acute toxicity

spinosad: LD50/Oral/Rat > 2000 mg/kg. LD50 rat (dermal) >5000 mg/kg.

20% benzisothiazolin-3-one: LD50 rat (oral) 1221-2175 mg/kg.

Acute oral toxicity Very low toxicity if swallowed. Harmful effects not anticipated from swallowing

small amounts. By calculation product: LD50, Rat, male and female, > 5,000

mg/kg

Acute dermal toxicity Prolonged skin contact is unlikely to result in absorption of harmful amounts. By

calculation product: LD50, Rabbit, male and female, > 5,000 mg/kg

Acute inhalation toxicity No adverse effects are anticipated from single exposure to mist. Excessive

exposure may cause irritation to upper respiratory tract (nose and throat).

Skin corrosion/irritation
Product is not classified for skin corrosion or irritation
Serious eye damage/eye irritation
Product is not classified for eye damage or irritation
Product is not classified for skin sensitization.

For respiratory sensitization: No relevant information found.

Specific Target Organ Systemic Toxicity (Single Exposure)

Evaluation of available data suggests that this material is not a STOT-SE

toxicant.

Specific Target Organ Systemic Toxicity (Repeated Exposure)

For the active ingredient(s): In animals, Spinosad has been shown to cause vacuolization of cells in various tissues. Dose levels producing these effects were many times higher than any dose levels expected from exposure due to use.

Carcinogenicity For the active ingredient(s): Did not cause cancer in laboratory animals. Teratogenicity For the active ingredient(s): Did not cause birth defects or other effects in the

foetus even at doses which caused toxic effects in the mother.

Reproductive toxicity For the active ingredient(s): In laboratory animal studies, effects on reproduction

have been seen only at doses that produced significant toxicity to the parent

animals.

Mutagenicity For the active ingredient(s): In vitro genetic toxicity studies were negative.

Animal genetic toxicity studies were negative.

Aspiration Hazard Based on physical properties, not likely to be an aspiration hazard.

Inhalation not a primary route of exposure.

Ingestion low toxicity. Contains bittering agent denatonium benzoate.

Skin contact Contains 1,2-benzisothiazolin-3-one. May produce an allergic reaction.

Eye contact May cause transient eye irritation.

12. ECOLOGICAL INFORMATION

12.1 Ecotoxicity Harmful to aquatic life with long lasting effects.

Spinosad has high toxicity to aquatic organisms

EC50/96hr/Daphnia >1 mg/kg EC50/96hr/Cyprinus carpio 4.5mg/l EC50/96hr/Navicula 0.079 mg/l

12.2. Persistence and degradability Spinosad cannot be considered readily biodegradable

12.3. Bioaccumulative potential Spinosyn A &D moderate (log Pow 3-5) **Bioaccumulative factor (BCF)** Spinosyn A 114, Spinosyn D 115.

12.4. Mobility in soil Spinosad is expected to be relatively immobile in soil (Koc >5000)

12.5. Results of PBT and vPvB assessment Spinosad and 1,2-Benzisothiazolin-3one are not considered to be PBT or

vPvB

12.6. Other adverse effects Spinosad is not listed in Annex 1 (EC)1005/2009 for substances that deplete the

ozone layer.

Date of Issue: February 2004 Revision: May 2021

13. DISPOSAL CONSIDERATIONS

13.1. Waste treatment methods Do not contaminate surf

Do not contaminate surface water or drains with chemicals or used container. Product and its container can be disposed of at a suitable local authority waste site. Do not re-use empty containers. Empty containers can be disposed of in normal

domestic waste.

14. TRANSPORT INFORMATION

14.1 UN NumberNot classified.14.2 UN proper shipping nameNot applicable.14.3 Transport hazard class(es)Not applicable.14.4 Packaging groupNot applicable.14.5 Environmental hazardsNot applicable.

14.5 Environmental hazards Not ap **14.6 Special precautions for user** None.

14.7 Transport in bulk according to Annex II of MARPOL 73/78 and the IBC code

Not evaluated.

15. REGULATORY INFORMATION

15.1 Safety, health and environmental regulations/legislation specific to this substance:

This substance is classified and labelled in accordance with regulation 1999/45/EC, 1272/2008, the statutory instrument No.716 2009 Chemicals (Hazard Information and Packaging) regulations, Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18 December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH), establishing a European Chemicals Agency, amending Directive 1999/45/EC and repealing Council Regulation (EEC) No 793/93 and Commission Regulation (EC) No 1488/94 as well as Council Directive 76/769/EEC and Commission Directives 91/155/EEC, 93/67/EEC, 93/105/EC and 2000/21/EC, including amendments.

15.2 Chemical Safety Assessment

not undertaken for this material

16. OTHER INFORMATION

Reason for revision General information Replaces version dated December 2020. Sections 2 and 12 updated.

The information contained in this Safety Data Sheet is believed to be true and correct, as of the issue date. The accuracy and completeness of this information and any recommendations, or suggestions are made without warranty or guarantee. Since the conditions of use are beyond the control of our company, it is the responsibility of the user to determine the conditions of safe use for this product.

Hazard Statements In Full

H302 Harmful if swallowed. H312 Causes skin irritation.

H317 May cause an allergic skin reaction.

H318 Causes serious eye damage

H410 Very toxic to aquatic life with long lasting effects.

H400 Very toxic to aquatic life.
