Keeping the Balance™

PEST CONTROL FOR GAMEKEEPERS

ABOUT KILLGERM®

KILLGERM CHEMICALS IS THE UK'S LEADING PEST CONTROL PRODUCT SUPPLIER, PROVIDER OF TRAINING AND TECHNICAL SUPPORT.

WIDE RANGE OF PRODUCTS

Killgerm are dedicated to bringing you the largest range of innovative products first, providing you with the tools you need that make a difference. Our product development team have contacts in pest control all over the world, meaning we are one of the first to hear about new products.

KILLGERM TRAINING

We believe the basis of good pest management is knowledge and we offer a wide variety of courses for different levels of experience and knowledge from basic principles of pest control, to specialist courses PA1/PA6, Aluminium Phosphide, bird control courses, legislation updates, new starter courses and RSPH Level 2 and Level 3 qualifications.

INDUSTRY UPDATES - STAY AHEAD WITH KILLGERM

We ensure our customers are always up-to-date with the latest industry changes and compliance requirements.

As leaders in the field, we provide timely updates and information, keeping you informed and compliant.

TECHNICAL SUPPORT AT YOUR FINGERTIPS

Our highly qualified technical department is one of the largest of any distributor in Europe. We are committed to supporting you every step of the way – from independent and unbiased advice on product selection to helping to solve technical problems. You only have to pick up the phone to receive technical help.

YOUR LOCAL ASM

Our local Area Sales Managers (ASMs) are always ready to provide technical support, whether over the phone or in person. They are dedicated to ensuring you have the best solutions for your pest control needs.

SUBSIDISED WASTE DISPOSAL SCHEME

Killgerm Chemicals Ltd operates a licenced waste transfer station and is registered as an upper tier waste carrier (CBDU141760). The company holds the relevant environmental permit (EPR/CP3398ZE). The Scheme will run annually

from 1st January until 31st December. The membership fee for all companies or individuals is £270 + VAT per annum and includes an individual waste allowance of 100kg per year.

OPENING AN ACCOUNT SIMPLE AND HASSLE-FREE

Opening an account with Killgerm Chemicals Ltd is straightforward. Just contact our office via phone or email, and our team will guide you through the easy steps to get started. If you would like a credit account, please complete our credit application form.

- The Killgerm ordering App
- Telephone on 01924 268 420
- Website at www.killgerm.com
- Contact your Area Sales Manager
- Email at sales@killgerm.com

ARE YOU COMPLIANT?

WILL YOU BE ABLE TO BUY PROFESSIONAL USE RODENTICIDE IN 2026?

Make sure you're ready for the upcoming changes to training and certification for the purchase and use of professional use rodenticides.

TO STAY COMPLIANT, HERE'S WHAT YOU NEED TO DO IN 2025:

If your training certificate is more than 5 years old (as of 1/1/2026) and you're not already a member of a CRRU UK-approved CPD scheme, you'll need to:

- Either join a CPD scheme in 2025 and collect 20 CPD points during the year – including 3 points from CRRU-approved training. You can complete this required training by watching our CRRU webinar recording ([link to webinar recording](#)).
- Or renew your training certificate in 2025.

CRRU APPROVED CPD SCHEMES

- BASIS PROMPT
- BPCA Registered
- British Pest Register

ONLINE AND FACE TO FACE KILLGERM TRAINING COURSES

Open Awards Level 2 Award in the Principles of Rodent Control
RSPH Level 2 Award in Pest Management

CORE PRODUCTS

TALUNEX

The Talunex flask is screwed onto the Topex applicator. One action of the Topex trigger releases one pellet allowing multiple applications with a flexible dose rate depending on pest species. For the control of rats, rabbits and moles. A B2P3 filter on a full face mask respirator is required when using Talunex.

Contains 57% Aluminium Phosphide

Sizes Available: 160 x 0.6g tablets

FENN MK4 & MK6

A traditional sprung trap with treadle trigger mechanism for the control of squirrels and rats. Care should be taken to avoid trapping non-target species by placing in covered runs or burrows or by using a suitable artificial tunnel.

The MK6 larger version of the MK4 trap for use in controlling rabbits, squirrels and mink. The same precautions with regard to non-target species should be observed.

Sold individually

HARMONIX® RODENT PASTE

Harmonix® Rodent Paste is an innovative rodenticide bait that offers several unique advantages for professional users. The product contains the active substance cholecalciferol which has a different mode of action to the predominantly used anticoagulant rodenticides.

Contains 0.075% cholecalciferol

Sizes Available: 5kg

DOC 150 & DOC 200 TRAPS

Developed by the Department of Conservation (DOC) in New Zealand, the DOC 150 and DOC 200 traps are innovative spring traps. The DOC traps are on the Spring Trap Approval Order 2018 in the UK.

The powerful and reliable traps are designed for use on rats, weasels, stoats, grey squirrels and mink*.

The durable and lightweight closed-end trap tunnel has a lure station, an easy setting plate, and clear baffles, which makes it easier to check for any catches.

The confluence card is filled with a peanut butter lure that is attractive to predators. They can be used to identify rats, stoats, weasels and squirrels.

Traps and Tunnel Sold Separately

SELONTRA®

Selontra® is based on the non-anticoagulant rodenticide Cholecalciferol, presented as a highly palatable soft block formulation. Cholecalciferol is effective against anticoagulant-resistant Norway rats and house mice. It is not bioaccumulative or persistent and therefore presents relatively lower secondary poisoning risks to non-target species, such as birds of prey, compared to second generation anticoagulants.

Contains 0.075% Cholecalciferol

Sizes Available: 3kg / 8kg

SAKARAT® BRODIKILL WHOLE WHEAT

A whole wheat rodenticide containing brodifacoum, made from high quality micronized whole wheat. Single feed, for use against rats and mice. Can be used in and around buildings.

Contains 0.0029% brodifacoum

Sizes Available: 10kg

SAKARAT® BROMABAIT

A whole wheat base rodenticide containing bromadiolone, this new addition to the Sakarat range, Bromabait is ideal for use across the PCO sector.

Contains 0.005% bromadiolone

Sizes Available: 10kg

RAT EYRE TUBE

A hopper system bait station enabling a visual check and refilling without handling the station.

Sold individually

AF® RAT BOX

The most versatile rat box on the market, this addition to the AF Range has many unique and new features.

Sold in packs of 6 & 24

AF® SNAPPA

A mouse bait station designed to trap mice using a Snap-E mouse trap so that the body of mouse is not visible once trapped, discreet for food areas

Sold in packs of 15. Black & Clear available

AF® TUNNEL

The AF Tunnel has been updated, whilst still retaining its compact and robust qualities. The updated design features a new key and locking mechanism. The new design allows two mouse traps to be fitted, without obstructing the run through. SNAP-E TRAPS SUPPLIED SEPARATELY.

Sold in packs of 15.
