12:30 – 13:30
Lunch

13:30 – 14:30
Pest Controllers vs Bed Bugs; Who's Winning?
Clive Boase
A generation ago, most pest controllers thought this pest was consigned to the history books. Not surprisingly therefore, the bed bug's resurgence caught our industry completely by surprise. Now however, we are better equipped with more sensitive monitors, more potent insecticides, and physically-acting treatments such as heat. Are these tools at last tipping the balance back in our favour, or do we still need a better game-plan?

14:30 – 15:00
Technical Update
Avril Turner, Killgerm Chemicals
A summery of recent and topical technical developments in the pest management industry.

15:00 – 15:30
Industry Update
Laurence Barnard, Killgerm Chemicals

15:30 Finish
