

# Sakarar Bromabait Safety Data Sheet

Labelling according to The Chemicals (Health and Safety) and Genetically Modified Organisms (Contained Use) (Amendment etc.) (EU Exit) Regulations 2019

Control of Substances Hazardous to Health Regulations 2002 (as amended). The REACH etc. (Amendment etc.) (EU Exit) Regulations 2020.

## SECTION 1: Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

Sakarar Bromabait GB-2015-0931/NI-2015-0931

### 1.2. Relevant identified uses of the substance or mixture and uses advised against

**Relevant identified uses:** A cereal-based rodenticide for use on rats and mice in and around buildings, and for rats only, in outdoor open areas and waste dumps.

**Uses advised against:** Not to be used for pulsed baiting.

### 1.3. Details of the supplier of the safety data sheet

**Address:** Killgerm Chemicals Ltd, Wakefield Road, Ossett, WF5 9AJ

**Tel:** +44 (0)1924 268 450

**Fax:** +44 (0)1924 265 033

**Email:** technical@killgerm.com

### 1.4. Emergency telephone number

Medical professionals should use National Poisons Information Service Tel: 0870 600 6266.

Killgerm Chemicals Ltd Tel:01924 268452 (Office hours) Emergency Line 08701906777

Non-medical professionals should seek information by contacting NHS by dialling 111.

## SECTION 2: Hazards identification

### 2.1. Classification of the mixture according to Regulation (EC) No. 1272/2008 [CLP]

Repro tox cat 1B: H360D May Damage the unborn child.

STOT RE cat 1: H372 Causes damage to organs through prolonged or repeated exposure

### 2.2. Label elements

**GHS08**

Signal Word: **DANGER**

#### Hazard statements:

**H360D:** May Damage the unborn child.

**H372:** Causes damage to organs(blood) through prolonged or repeated exposure.

#### Precautionary statements:

**P102:** Keep out of the reach of children.

**P103:** Read the label before use.

**P201:** Obtain special instructions before use.

**P202:** Do Not handle until all safety precautions have been read and understood.

**P260:** Do not breath dust.

**P270:** Do not eat, drink, or smoke when using this product.

**P273:** Avoid release into the environment.

**P280:** Wear protective gloves and clothing.

**P308+P313:** IF exposed or concerned: Get medical advice/attention.

P314: Get medical advice/attention if you feel unwell.

**P404+P405:** Store locked up: store in a closed container.

**P501:** Dispose of contents/container to a licensed hazardous waste disposal contractor or collection site except for empty clean containers which can be disposed of as non-hazardous waste.

To avoid risk to man and to the environment comply with the instructions for use. Safety data sheet available for professional user on request.

### 2.3. Other hazards

This product contains Bromadiolone, an indirect anticoagulant. Any signs of poisoning are unlikely to occur until 12-18 hours after ingestion. Thereafter, they will develop progressively and may rapidly appear. See Section 4.2. for detailed information about the important symptoms of exposure. This product is hazardous to mammals including domesticated animals, and birds if ingested. Exposure of non-target animals should be prevented.

# Sakarar Bromabait Safety Data Sheet

Labelling according to The Chemicals (Health and Safety) and Genetically Modified Organisms (Contained Use) (Amendment etc.) (EU Exit) Regulations 2019

Control of Substances Hazardous to Health Regulations 2002 (as amended). The REACH etc. (Amendment etc.) (EU Exit) Regulations 2020.

## SECTION 3: Composition/information on ingredients

### 3.2 Mixtures

#### Hazardous Components in Product

Ingredient Name	Classification	Concentration	H Phrases
Bromadiolone Technical Material CAS No.: 28772-56-7	Acute Tox. Cat. 1 (Oral, Dermal, Inhalation) Repr. Tox. 1B STOT RE Cat. 1 Aquatic Acute Cat. 1 Aquatic Chronic Cat. 1	0.005% W/W	H300, H310, H330 H360D H372 H400 H410
Denatonium Benzoate CAS No.: 3734-33-6 EC No.: 223-095-2	Acute Toxic Cat. 4 (Oral, Inhalation) Skin irritation Cat. 2 Eye irritation Cat. 2 Aquatic Chronic Cat. 3	0.001% W/W	H302, H332 H315 H319 H412

See section 16 for full text of H phrases and hazard classification of ingredients.

## SECTION 4: First aid measures

### 4.1. Description of first aid measures

**General:** If during or after use/exposure you begin to feel unwell, seek medical attention bringing a copy of the product label/the SDS.

**Eye contact:** Flush with clean water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists, seek medical advice.

**Skin contact:** Remove contaminated clothing. Wash with water and then with soap and water.

**Ingestion:** DO NOT induce vomiting. Rinse mouth carefully with water. Never give anything by mouth to an unconscious person. If swallowed, seek medical advice immediately and show the product's container or label.

**Inhalation:** Remove from exposure. Get medical attention if symptoms develop.

### 4.2. Most important symptoms and effects, both acute and delayed

This product contains Bromadiolone, an indirect anticoagulant. Any signs of poisoning are unlikely to occur until 12-18 hours after ingestion. Thereafter, they will develop progressively and may rapidly appear. If ingested, symptom, which may be delayed, may include nosebleed and bleeding gums. In severe cases, there may be bruising, and blood present in the faeces or urine. Clinical signs result from an increased bleeding tendency and include: an increase in prothrombin time, bruising easily with occasional gum bleeding, blood in the stool or urine, excessive bleeding from minor cuts and abrasions, pale mouth and cold gums, anorexia and general weakness. More severe cases of poisoning include haemorrhage (usually internal) and shock.

### 4.3. Indication of any immediate medical attention and special treatment needed

In the case of suspected poisoning, determine prothrombin time not less than 18 hours after consumption. If elevated, administer vitamin K1, 40mg/day for adults and 20mg/day for children in divided doses. Continue until prothrombin times normalise. Continue determination of prothrombin time for two weeks after withdrawal of the antidote and resume treatment if elevation occurs in that time. N.B. Vitamin K3 is not effective. For comprehensive medical advice on the treatment of poisoning, contact the nearest Poisons Information Centre.

## SECTION 5: Firefighting measures

### 5.1. Extinguishing media

**Suitable extinguishing agents:** Use water spray, foam, dry chemical or carbon dioxide.

**Unsuitable agents:** water jet.

### 5.2. Special hazards arising from the substance or mixture

This product is non-flammable, but combustible. May produce toxic fumes of carbon monoxide if involved in a fire.

### 5.3. Advice for firefighters

Wear self-contained breathing apparatus and appropriate protective equipment.

Fire residues and contaminated extinguishing media should be disposed according to current regulation. Do not allow extinguishing media to enter sewers, ground water or water courses.

# Sakarar Bromabait Safety Data Sheet

Labelling according to The Chemicals (Health and Safety) and Genetically Modified Organisms (Contained Use) (Amendment etc.) (EU Exit) Regulations 2019

Control of Substances Hazardous to Health Regulations 2002 (as amended). The REACH etc. (Amendment etc.) (EU Exit) Regulations 2020.

## SECTION 6: Accidental release measures

### 6.1 Personal precautions, protective equipment and emergency procedures

Personnel dealing with accidental spills and release of the mixture should wear personal protective equipment described in section 8 under "spillage".

### 6.2. Environmental precautions

Do not allow the product to get to the sewers, ground and surface waters. Do not rinse product to the sewers. In case of water contamination - inform appropriate authorities immediately.

### 6.3. Methods and material for containment and cleaning up

Sweep up spilled material carefully. Avoid raising dust. Place in marked receptacle ready for disposal. Contact supplier for advice on disposal. See also section 13.

### 6.4. Reference to other sections

See section 8 for protective clothing / See section 7 for safe handling / See section 13 for disposal.

## SECTION 7: Handling and storage

### 7.1. Precautions for safe handling

The product must be used in accordance with the product label. / FOR USE ONLY BY PROFESSIONAL OPERATORS. AVOID ALL CONTACT BY MOUTH. / PREVENT ACCESS TO BAIT by children, birds and non-target animals particularly dogs, cats, pigs and poultry. / Search for and remove rodent bodies at frequent intervals during treatment. Collect and dispose of the remains of bait and any remaining rodent bodies after treatment. You must ensure that you comply with legislation regarding the correct disposal of waste. / HAZARDOUS TO WILDLIFE. DO NOT PLACE BAIT where food, feed or water could become contaminated. / WASH HANDS AND EXPOSED SKIN before meals and after use. EMPTY CONTAINER COMPLETELY and dispose of safely. / When working in rodent infested areas it is recommended that synthetic rubber/PVC gloves be worn to protect against rodent borne disease. / Always attach labels to any containers used to carry bait decanted from the main container. Do not remove inner liner from outer bag.

### 7.2. Conditions for safe storage, including any incompatibilities

Store in a dry, cool and well-ventilated place. Keep the container closed, and store away from direct sunlight. Store in places inaccessible to children, birds, pets, and farm animals.

### 7.3. Specific end use(s)

See section 1.2.

## SECTION 8: Exposure controls/personal protection

### 8.1. Control parameters

Contains no substances with workplace exposure limits.

### 8.2. Exposure controls

Where exposure may occur engineering controls should be employed. A risk assessment should be carried out and the following PPE may be appropriate /required.

PPE	Item in use	Spillage
Respirators	Not needed under normal use.	Half mask respirator (EN140), plus P class filter (EN143).
Gloves	Protective Gloves to EN 374 e.g. Nitrile.	Protective Gloves to EN 374 e.g. Nitrile.
Overall	Basic type e.g. Heavy duty polycotton or coverall type 5/6.	Basic type e.g. Heavy duty polycotton or coverall type 5/6.
Goggles / Face shield	Safety glasses to EN 166	Safety glasses to EN 166

**General safety and hygiene measures:** Handle in accordance with good industrial hygiene and safety practice. Wearing of closed work clothing is recommended. Store work clothing separately. Keep away from food, drink and animal feeding stuffs.

# Sakarar Bromabait Safety Data Sheet

Labelling according to The Chemicals (Health and Safety) and Genetically Modified Organisms (Contained Use) (Amendment etc.) (EU Exit) Regulations 2019

Control of Substances Hazardous to Health Regulations 2002 (as amended). The REACH etc. (Amendment etc.) (EU Exit) Regulations 2020.

## SECTION 9: Physical and chemical properties

### 9.1. Information on basic physical and chemical properties

Appearance:	Blue/Green whole wheat grain bait.
Odour:	characteristic wheat odour.
Odour threshold:	No data
pH:	Not applicable.
Melting point/freezing point:	Not applicable.
Initial boiling point/boiling range:	Not applicable.
Flash point:	Not applicable.
Evaporation rate:	Not applicable.
Flammability:	Not applicable
Upper/lower flammability or explosive limits:	No available data.
Vapor pressure:	Not applicable.
Vapor density:	Not applicable.
Relative density:	0.7 (20°C)
Solubility(ies):	Water: Insoluble. – No information for other solvents.
Partition coefficient n-octanol/water (log Kow):	No available data.
Auto-ignition temperature:	No available data.
Decomposition temperature:	No available data.
Viscosity:	No available data.
Explosive properties:	None, no ingredients with explosive properties.
Oxidising properties:	None, no ingredients with oxidizing properties.

### 9.2 Other Information

No further relevant information

## SECTION 10: Stability and reactivity

### 10.1. Reactivity

Not reactive mixture

### 10.2. Chemical stability

Stable under recommended conditions of storage and handling.

### 10.3. Possibility of hazardous reactions

None anticipated.

### 10.4. Conditions to avoid

High temperatures, direct sunlight, humidity.

### 10.5. Incompatible materials

Store away from strong oxidising agents.

### 10.6. Hazardous decomposition products

Carbon monoxide, oxides of nitrogen, and products toxic and irritant properties released if mixture is involved in a fire.

## SECTION 11: Toxicological information

### 11.1. Information on toxicological effects

Classification of the product was conducted by calculation method according to regulation 1272/2008 based on the content of hazardous ingredients:

**a) acute toxicity:** Information has been derived from the properties of the individual ingredients.

Bromadiolone: Oral LD50 (rat) >2000mg/kg

**b) irritation:** Skin, eyes, respiratory tract – no irritation potential expected. Information derived from the properties of the individual ingredients.

**c) corrosivity:** Based on data available classification criteria are not met.

**d) sensitisation:** Based on data available classification criteria are not met.

-Continued next page-

# Sakarar Bromabait Safety Data Sheet

Labelling according to The Chemicals (Health and Safety) and Genetically Modified Organisms (Contained Use) (Amendment etc.) (EU Exit) Regulations 2019

Control of Substances Hazardous to Health Regulations 2002 (as amended). The REACH etc. (Amendment etc.) (EU Exit) Regulations 2020.

## - Section 11.1 continued -

**e) repeated dose toxicity:** The product has not been tested. Repeated exposure to small quantities may affect certain organs, Damages the coagulation system.

**f) carcinogenicity:** product does not contain any compounds with carcinogenic hazard.

**g) mutagenicity:** product does not contain any compounds with germ cell mutagenicity hazard.

**h) toxicity for reproduction:** Based on data available the product is classified as potentially causing harm to an unborn child. The results of animal studies gave no indication of a fertility impairing effect. The product has not been tested. The statement has been derived from the properties of the individual components.

**i) aspiration:** No information.

## 11.2. Other Data

See section 2.3

## SECTION 12: Ecological information

### 12.1. Toxicity

The Bromadiolone in this product is classified as very toxic to aquatic organisms and may cause long term adverse effects in the aquatic environment. However, when used in accordance with instructions, controlled release of this product is not expected to cause environmental contamination

Data derived from the active ingredients.

Bromadiolone:

LC<sub>50</sub> Rainbow trout (*Onorhynchus mykiss*) 2.86mg/L (96h)

EC<sub>50</sub> *Daphnia magna* 5.79mg/L (48h)

E<sub>r</sub>C<sub>50</sub> Algae (*Pseudokirchneriella subcapitata*) 1.14mg/L (72h)

### 12.2. Persistence and degradability

Degradation in soil is slow. For Bromadiolone, aerobic degradation half-life is 53 days, anaerobic degradation half-life is 60 days.

### 12.3. Bio accumulative potential

The active ingredient properties indicate a potential to bio-accumulate.

### 12.4. Mobility in soil

Mobility potential is very low and will depend principally on the soil type. Bromadiolone and any potential degradation products even if released indirectly to soil in small quantities are not likely to move through the soil profile and are unlikely to reach groundwater in significant quantities.

### 12.5. Results of PBT and vPvB assessment

Does not meet requirement for assessment.

### 12.6. Other adverse effects

None known

## SECTION 13: Disposal considerations

### 13.1. Waste treatment methods

Disposal of uneaten product, empty containers and contaminated packaging must be made in accordance with the local law. For information on disposal in the UK contact the environment agency ([www.environment-agency.gov.uk](http://www.environment-agency.gov.uk)) or SEPA ([www.SEPA.org.uk](http://www.SEPA.org.uk)). Dispose of unused product in the original container as hazardous waste.

Empty containers and contaminated PPE should be considered hazardous and disposed of appropriately.

Suggested European waste code 20 01 19.

## SECTION 14: Transport information

### 14.1. UN number

Not applicable

### 14.2. UN proper shipping name

Not applicable

### 14.3. Transport hazard class(es).

Not applicable

Date of issue: December 2021

Replaces version issued: November 2020

# Sakarar Bromabait Safety Data Sheet

Labelling according to The Chemicals (Health and Safety) and Genetically Modified Organisms (Contained Use) (Amendment etc.) (EU Exit) Regulations 2019  
Control of Substances Hazardous to Health Regulations 2002 (as amended). The REACH etc. (Amendment etc.) (EU Exit) Regulations 2020.

## 14.4. Packing group

Not applicable

## 14.5. Environmental hazards

Not applicable

## 14.6. Special precautions for user

Not applicable

## 14.7. Transport in bulk according to Annex II of Marpol and the IBC Code.

Not applicable.

## SECTION 15: Regulatory information

### 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

Labelling according to The Chemicals (Health and Safety) and Genetically Modified Organisms (Contained Use) (Amendment etc.) (EU Exit) Regulations 2019

Control of Substances Hazardous to Health Regulations 2002 (as amended).

The REACH etc. (Amendment etc.) (EU Exit) Regulations 2020.

- Restricted to trained professional users in the UK and professional users in Ireland.
- Refer to other relevant measures such as the Health and Safety at Work etc Act 1974 and the COSHH regulations and guidance.
- The information contained in this data sheet does not constitute the user's own assessment of workplace risks as required by legislation.

### 15.2. Chemical safety assessment

No Chemical Safety Assessment has been carried out for this substance/mixture by the supplier.

## SECTION 16: Other information

Use only in accordance with label instructions. Operatives using this product should be trained in its use. The information in this data sheet should be considered when undertaking a risk assessment under the COSHH regulations.

### Ingredient classification data:

Acute Toxicity category 1 (Oral)	H300: Fatal if swallowed
Acute Toxicity category 4 (Oral)	H302: Harmful if swallowed
Acute Toxicity category 1 (Dermal)	H310: Fatal in contact with skin
Acute Toxicity category 4(inhalation)	H332: Harmful if inhaled
Skin Irritation category 2	H315: Causes skin irritation
Eye Irritant category 2	H319: Causes serious eye Irritation
Reproductive Toxicity category 1A	H360: May damage fertility or the unborn child
Specific Target Organ Toxicity repeat exposure category 1	H372: Causes damage to organs through prolonged or repeated exposure
Aquatic Acute category 1	H400: Very toxic to aquatic life.
Aquatic Chronic category 1	H410: Very toxic to aquatic life with long lasting effects.
Aquatic Chronic category 3	H412: Harmful to aquatic life with long-lasting effects.

Issue number (date)	Section amended
Issue (Mar 2018)	First creation.
Issue (Aug 2019)	Update to style and layout – some updates to minor wording.
Issue (Nov 2020)	Amended H and P phrases
Issue DEC 2021	Added Emergency number

### This safety data sheet does not constitute a COSHH assessment.

The information contained within this data sheet is strictly for general guidance only and should not be relied upon over and above this. This data sheet is intended to provide general health and safety guidance on the handling, storage and transportation of the preparation. The information provided in this data sheet is accurate at the date of publication and will be updated as and when appropriate. No liability will be accepted by Killgerm Chemicals Limited for any loss, injury or damage arising from any failure to comply with the information and advice contained within this data sheet and/or failure to comply with the manufacturer's guidelines, product label data and any associated technical usage literature.
