

DE POWDER

Professional insecticides for professional use

Vazor® DE Powder contains Silicium dioxide/Kieselguhr which acts on the outer layer of the cuticle of any insect it contacts. Their outer, protective waxy coating is disrupted and the insect dies. Use against ants, silverfish, woodlice, cockroaches, fleas, ticks, earwigs, carpet beetles, spiders, lice, mites, bedbugs, stored product species including saw-toothed grain beetle, rust-red grain beetle, grain weevil, lesser grain beetle, rust-red flour beetle, moth larvae, flour mite, cosmopolitan food mite, and against the poultry red mite.

CONTAINS: SILICIUM DIOXIDE/KIESELGUHR AND PROPAN-2-OL 35%

Directions for use

Apply the product until a film covering is present on the surface. Vazor® DE Powder will remain dry and effective for long periods but optimal results will be achieved when treatment areas are dried before application. Apply in such a way as to maximise potential for contact between the product and the target pest. In certain premises/situations this may involve moving products, drying out the area or otherwise making changes to the harbourage to increase contact with the pest.

Areas of use

Domestic, commercial, institution & commercial premises, gardens, pets' quarters, kennels, pigeon lofts, waste bins/ storage areas, poultry houses and stored product premises.

Dosag

This dose is rate is from the dust product. Regarding aerosol we recommend to produce an even spray film.

Silicium dioxide/Kieselguhr CAS 61790-53-2 User protection: Avoid unnecessary contact with the dust;

misuse can lead to health damages.

Do not breathe dust . Keep out of reach of children. Do not get

Do not breathe dust . Keep out of reach of children. Do not in eyes, on skin, or on clothing.
