

#### STATUTORY CONDITIONS OF APPROVAL RELATING TO USE:

- FOR USE ONLY AS AN INSECTICIDE
- FOR USE ONLY BY PROFESSIONAL OPERATORS
- This product is approved under The Control of Pesticides Regulation 1986 (as amended) for use as directed.

- HSE No. 10856/PCS No. 101388
- Users must comply in full with all their legal responsibilities under the Control of Pesticides Regulations 1986 (as amended) and the Control of Pesticides Regulations (Northern Ireland) 1987 (as amended), including complying with all Conditions of Approval.
- READ ALL PRECAUTIONS BEFORE USE.
- USE ONLY IN ACCORDANCE WITH THE DIRECTIONS ON THE LABEL.

**WARNING**

#### HAZARD STATEMENTS

**Harmful if inhaled.**

**Very toxic to aquatic organisms with long-term effects.**

#### PRECAUTIONARY STATEMENTS

If medical advice is needed, have product container or label at hand.

Keep out of reach of children.

Read label before use.

Avoid breathing vapours/spray.

Use only indoors or in a well-ventilated area.

Dispose of contents/container to a facility in accordance with local/regional/national/international regulations.

#### CONTAINS:

m-phenoxybenzyl (1R-trans)-2,2-dimethyl-3-(2-methylprop-1-enyl)cyclopropanecarboxylate 110.16 g/L (10.64%)

2-methyl-4-oxo-3-(prop-2-ynyl)cyclopent-2-

en-1-yl-2,2-dimethyl-3-(2-methylprop-1-enyl)

cyclopropanecarboxylate 11.07 g/L (1.07%)

Propyl-1,2-diol 51.75g/L (5%)

To avoid risks to human health and the environment, comply with the instructions for use.  
HSE10856/PCS101388

#### DIRECTIONS FOR USE

Vazor Phepra CS provides a rapid knockdown, it kills in few hours, and it can be used for crawling and flying insect control with an extended residual activity up to 12 weeks. The residual activity depends upon the surface applied and the environmental conditions. Repeat application if necessary. Consider principles of IPM (integrated pest management) to avoid resistance.

#### Mixing instructions:

Shake the product container well before use. Fill the clean tank of the spray equipment with half the required water content. Add the correct volume of VAZOR PHEPRA CS. Fill up the spray tank with the remaining volume of clear water. Close the spray tank and agitate. If a delay occurs between treatments, re-agitate before re-use. Do not store prepared spray solution and use the ready mixed spray solution as soon as possible. Clean the spray equipment with clear water after treatment.

#### Application concentration / use rates

**Spot, Surface, Perimeter, Crack and Crevices application:**

VAZOR PHEPRA CS	Water	Application surface
50 ml	5L	100 m <sup>2</sup> (50 ml/m <sup>2</sup> )

Apply through a suitable hand mechanical or electric sprayer (e.g. battery operated or electrostatic) producing a coarse spray. Spray evenly to all surfaces giving special attention to cracks, crevices, dead spaces and places where insects harbour. The product is not for use on clothing or bedding or on cots where infants sleep.

Wear suitable gloves and impermeable coveralls. Wear eye protection in addition when diluting.

Due to working hygiene reasons, respiratory protection is recommended during spraying.

#### Domestic areas (flying and crawling insects):

In domestic premises, hospitals, residential/nursing homes and prisons and areas where humans and pets can come in contact with the spray, apply the product as band/spot or crack and crevice treatment only.

Close all doors and windows prior to use. Do not enter the treated area for at least 30 minutes after treatment and wait until the spray has dried before re-occupying. Ventilate the treated area.

#### Wasp and hornet nests:

Apply liberally and directly to the nest or to entrance holes of concealed nests until the nest is saturated.

#### Ants (nest control):

Ants take up many microcapsules and carry them to the nest where the microcapsules start to release the active ingredient to control ants, the pupae, the queen and the nest. Treat an area of 1 m<sup>2</sup> around the nest entry and a band of 10 cm on the foraging paths of the ants to the nest.

#### Bedbugs:

Apply in typical bedbug harbourages such as:

- under and on the corners of the mattress on the bed base, under the bed, under the night tables, on cracks and crevices that can be a harbourage for bedbugs around the bed.

#### RESTRICTIONS

- FOR USE ONLY BY PROFESSIONAL OPERATORS
- ACTION SHOULD BE TAKEN TO PREVENT FORAGING BEES GAINING ACCESS TO TREATED NESTS, PREFERABLY BY REMOVING THE COMBS OR BLOCKING THE NEST ENTRANCE.
- ALL BATS ARE PROTECTED UNDER THE WILDLIFE AND COUNTRYSIDE ACT 1981. BEFORE TREATING ANY STRUCTURE USED BY BATS, CONSULT NATURAL ENGLAND, SCOTTISH NATURAL HERITAGE OR THE COUNTRYSIDE COUNCIL FOR WALES.
- AVOID EXCESSIVE CONTAMINATION OF COVERALLS.
- COLLECT EGGS AND REMOVE FEED, EXPOSED WATER AND MILK BEFORE APPLICATION.

- COVER ALL WATER STORAGE TANKS before application.
- DO NOT APPLY DIRECTLY TO LIVESTOCK AND POULTRY.
- DO NOT APPLY TO CLOTHING OR HUMAN BEDDING.
- DO NOT CONTAMINATE FOODSTUFFS, EATING UTENSILS OR FOOD CONTACT SURFACES.
- DO NOT TOUCH TREATED SURFACES UNTIL DRY.
- EXCLUDE ALL PERSONS AND ANIMALS DURING TREATMENT.
- HAZARDOUS TO REES.
- KEEP IN A SAFE PLACE.
- NOT TO BE USED ON PET BEDDING, PET SLEEPING QUARTERS OR WHERE PETS FREQUENTLY LIE.
- Protect milk machinery and milk containers from contamination.
- The COSHH (Control of Substances Hazardous to Health) Regulations 2002 (as amended) apply to the use of this product at work.
- This material and its container must be disposed of in a safe way.
- WASH HANDS AND EXPOSED SKIN before meals and after use.
- DO NOT enter or allow others to enter the treated area until the sprays have dried.
- DO NOT allow people to enter treated area until vapours or mists have dispersed, and the treated area has been thoroughly ventilated.
- DO NOT use near aquariums or cover the aquarium before use.
- DO NOT make applications in areas where pets are present in the facility. Allow treated surfaces to completely dry before allowing pets to return.
- DO NOT contaminate any pet food, feed, or water in and around pet housing when making applications.
- DO NOT apply directly to sewers or drains, or to any area like a gutter where drainage to sewers, storm drains, water bodies, or aquatic habitat can occur, except as directed by this label.

#### STORAGE AND DISPOSAL

Store in a cool and dry place, protected against frost. Do not contaminate water, food or feed by storage or disposal. Store in original container, out of reach of children and pets. If empty, do not reuse or refill this container. Offer for recycling, if available.

#### FIRST AID

**General information:** In case of persisting adverse effects, consult a physician. Remove contaminated clothing and shoes immediately, and launder thoroughly before reusing. If the patient is likely to become unconscious, place and transport in stable sideways position.

**After inhalation:** Remove affected person from the immediate area. Ensure supply of fresh air.

**After skin contact:** In case of contact with skin wash off with water.

**After eye contact:** Remove contact lenses. Rinse eye thoroughly under running water keeping eyelids wide open and protecting the unaffected eye (at least 10 to 15 minutes).

**After ingestion:** Do not induce vomiting. Call a doctor immediately. Never give anything by mouth to an unconscious person.

# PHEPRA CS

PROFESSIONAL INSECTICIDE – PT18

BROAD-SPECTRUM INSECTICIDE WITH KNOCKDOWN ACTION AND  
LONG-LASTING KILLING EFFECT. CONTROLS CRAWLING AND FLYING INSECTS.

**VAZOR® PHEPRA CS** is a liquid microencapsulated insecticide in aqueous suspension for professional use with rapid knockdown and residual effect of 12 weeks on non-porous and porous surfaces. The product is water-based, non-staining and of neutral odour.

For the control of crawling and flying insect pests for spray application indoors, e.g. in homes, warehouses, animal shelters, industrial plants, public buildings and spaces including food handling and storage areas as well as hospitals. **VAZOR® PHEPRA CS** can be used in agricultural premises, stables, chicken and poultry farming, livestock units, empty grain storages, farm outbuildings and dairies.

**VAZOR® PHEPRA CS** is effective against a broad spectrum of insect pests including ants (*Lasius niger*), bed bugs (*Cimex lectularius*), German and Oriental cockroaches (*Blattella germanica* and *Blatta orientalis*), litter beetles (*Alphitobius diaperinus*), poultry red mites (*Dermanyssus gallinae*), flies such as house fly (*Musca domestica*), stable fly (*Stomoxys calcitrans*) and horn fly (*Haematobia irritans*), mosquitoes (*Aedes* spp and *Culex pipiens*), food moths (*Ephestia kuehniella* and *Plodia interpunctella*), wasps (*Vespa germanica*) and European hornets (*Vespa crabro*).

**CONTAINS: 1R-TRANS PHENOTHRIN 10% W/W (100 g/l)  
PRALLETHRIN 1% W/W (10 g/l)**

Contents: 1 litre

The product expires two years  
from manufacturing date

Shake well before use and  
protect from frost
